

MANAGE ONSITE VISITORS & KEEP YOUR WORKPLACE SAFE.

Packed with features, our visitor management solution will take care of the entire visitor process with ease and simplicity.

HOW IT WORKS

VISITORS SIGN IN

Visitors, contractors and couriers enter their details and select the person they are visiting using the intuitive VMC solution. Their details, acknowledgment of terms of entry and photograph are captured and a visitor badge is then printed. Hosts can speed this process up even further by pre-registering groups, and staff can quickly sign in with a QR code through the app.

HOSTS NOTIFIED OF VISITOR ARRIVAL

Hosts receive an email or SMS notification alerting them that their guest has arrived. Visitors are then greeted by their host, while the solution keeps track of who is on site, where and for how long.

ALL DATA IS CAPTURED

Gain a full insight into all staff, visitor, contractor and delivery activities happening on the premises, along with capturing required Terms of Entry acknowledgments. The information is available for compliance and WH&S management and reporting.

FEATURES

IPAD WELCOME KIOSK

Securely give your visitors a professional welcome and streamline the check-in process. Capture details, photos, sign induction or terms of entry forms and more.

MOBILE APP

Enjoy fast QR code sign-in, view visitor details, manage employee time and attendance and receive arrival and Emergency notifications.

WEB DASHBOARD

Collect centralised information for compliance, analytics and reporting, co-ordinate pre-registrations or meeting invitations and track staff time & attendance.

BADGE PRINTER

Provide visitors printed badge: in an instant, making them easily identifiable.

BENEFITS

So much to enjoy about Visitor Manager Central

MANAGE HEALTH SCREENING & IMPROVE OH&S COMPLIANCE

Incorporate Health Screening and streamline OH&S compliance to better manage the safety of visitors and staff. Customise questions into your sign-in workflow and perform different actions depending on the response. Capture visitor acknowledgement and activate compliance workflow management through alerts, terms & conditions of entry, induction policies, documents or videos.

CUSTOMISE EACH KIOSK & REINFORCE YOUR BRAND

Customise your interface to suit your company brand, updating the look and feel in just a few minutes. Even create varied profiles, information capture and workflows specific to each location. What's more, add as many different sign-in workflows with their own individual conditions of entry, custom fields and questions to capture the exact data needed.

ENJOY BETTER SECURITY

Always know exactly who, where and why a visitor is onsite at all times with a digital record of anyone entering or exiting your premises. In addition, guests are easily identifiable through instant Photo ID Labels which display their name, photo and reason for visiting.

MANAGE EMERGENCY EVACUATIONS

Improve risk mitigation with instant emergency notifications. Send emergency alerts via email and SMS with one click and easily contact specific safety personnel should their assistance be required.

CONTACTLESS SIGNIN & PRE-REGISTER GROUP BOOKINGS

Streamline group arrivals and enhance the sign-in experience by pre-registering visitors. Guests then simply scan in contactlessly using their pre-received QR code saving precious time on arrival.

VIRTUAL KIOSKS

Guests can scan a QR code using their phone and be presented with a virtual kiosk to facilitate sign-in.

CREATE BETTER FIRST IMPRESSIONS

Wow your guests with a smart and professional custom designed iPad kiosk. The user friendly solution welcomes guests with a modern and easy to use sign-in process.

CONTRACTOR MANAGEMENT & VALIDATION

Protect your business with automatic validation of contractor credentials, licenses and certificates, by linking to local or external Contractor Management Systems, such as LinkSafe. Integrate directly for real-time checks.

REDUCE OPERATION COSTS

Free up staff from manual, tedious tasks with a cost-efficient digital visitor management solution, and save costs on purchasing & storing paper-based visitor ledgers too.

“

The solution has created a really professional and impressive front desk experience for our visitors.
